PROFILE

I am a recent Bachelor of Information Technology graduate specialising in data analysis and AI/ML solutions, with hands-on experience building Azure-based solutions and implementing machine learning models. Demonstrated ability to work collaboratively through project-based study and volunteer roles, and eager to apply my technical skills in a professional environment and contribute to real-world outcomes.

SKILLS

Technical skills

- **Operating systems**: Windows (daily driver), Linux – experience with Ubuntu and Raspbian
- **Data analysis**: Python for complex custom multi step analysis, Knime for quick first looks at new data sets and MATLAB for simulations.
- **AI**: Azure foundry for cloud AI tools, Claude code for bug testing and speeding up development.
- **Programming languages**: Python, HTML5, C++, SQL, Java script, MATLAB.

Transferable skills

- **Leadership and time management** – Years as the Events Coordinator and later Secretary for 150-person electronic games club where I honed skills in coordinating people and efficiently allocating time.
- **Multi-Tasking and customer service** – Years working at Hotel CBD provided experience in prioritisation and customer relations in a professional environment.
- **Clear and patient communication** – Years spent in volunteer youth ministry have developed my skills in effective communication.

EDUCATION AND TRAINING

Bachelor of Information Technology (Data Engineering) | TAFE NSW | 2026

EXPERIENCE

Cellar staff | Hotel CBD, NSW | 2021 – 2023

- Managed inventory levels across 2 bars and 2 event spaces – Restocking based on actual needs compared to expected usage.
- Handled food service and was a first contact point for customer complaints.
- Completed both standard operational tasks and specialised one-time requirements as needed by business requirements.

Events Coordinator | Gamers Guild UTS | 2019 – 2020

- Organised events with up to 150 attendees including interfacing with external vendors for catering, advertising and booth sales.
- Handled member-to-executive relations including resolving complaints and proposing new activities suggested by members.
- Handled procurement of new devices and items for events and regular operations ensuring supply of necessary items is maintained to prevent issues.
